VOL. I.

A

	Page
Agricultural Improvements,	13, 218
Systematic Agriculture,	16
Apricot of Mush,	28
Annals of the Sciences,	50
Twice-blooming Apple,	58
Act for the promotion of Agriculture.	73
Agricultural Convention,	100
Soft-shelled Almonds,	121
N. Y. County Agricultural Society,	123
Adansonia digitata.	124
Agricultural Prospects,	140, 170
To produce Animals of either sex,	141
Ant and the Aphis,	173
Papers published by the Agricultural Societies of Virginia,	206
Addresses before the N York Hor. Society,	210, 211
Amherstia nobilis.	246
Dignity and importance of Agricultural Pursuits.	262
To preserve Apples,	296

B.

Cultivation of Cape Brocoli,	35
Calorimeter for preserving Butter,	50
Rural Beauty,	51
Biography of Wm. Speechly,	64
Sir J. E. Smith.	166
Hon. Richard Peters,	286
Rare Botanical Book,	74
Beets.	61, 76
Insectiverous Birds,	93
Bugs in Peas	100
To destroy Bugs,	116, 174
Bee Hives,	123
A short Treatise on Botany,	130, 156, 185, 205, 253, 292
Bones,	148
Bark,	149
Salting and Curing Butter,	175, 222, 281
Curing Beef. Pork and Bacon,	198, 199, 248
Fire Blight.	252
Brighton Cattle Market,	296

C.

Camellia Japonica,	26, 66, 112, 153
Cow Tree of the Caraccas,	51
Large Currants,	ib.
Large Cauliflowers,	ib.
High Cranberry,	76
Coffee,	99
Difference of Constitution,	128
Climate in reference to vegetation and tillage.	145
To purify Musty Cider,	171
To refine Cider,	246
Cockroaches,	172, 189
Cleaning Silks, Woollens, &c.	172, 265
Cheese,	174, 196
Cloth fabricated by insects,	175
Remedy for Whooping Cough,	196
Cow Cabbage,	200
Milch Cows,	ib.
Fattening Cattle,	ib.
Indian Corn,	229
Indian Corn in England,	248
Curl in Potatoes,	230
Dried Cherries,	247
Criteria of a beautiful Cow.	ib.
Cedar non-conductor of Electricity.	248
Neat or Horned Cattle,	265, 290
Causes of Cough in Sheep	276

D.

Dairies in Devonshire, Eng.	140
Ditching,	122
Horn Distemper,	199

E.

Variegated Euphorbia,	76
Green Earth or Jersey Marl,	86
Steam Engines to Agriculture,	176
Eggs from Putrefaction,	224
Electric Fluid not conducted by cedar & beech trees.	248, 272

F.

	Page.
Fatherland Farm,	6
Farm in Chili,	52
Liliaceous Flowers,	69
Fences,	76, 108
Flax,	82
Natural laws governing double flowers,	103
Live Fences,	108
Potato Flour,	121, 175
Gold and Silver Fish,	173
Retarding the ripening of fruits,	175
Economy in Fuel,	246
Good Farming,	247
Obtaining better sorts of Fruit,	279

G.

Culture of the Grape,	4. 55, 75, 77, 101, 209 270
Preserving Grapes by dipping the stems in tar,	28, 54
Harvesting Grain,	58
Cultivation of Garden Products,	61
Suburban Gardens of N. York,	96, 188
Orange fruited gourd,	90
Gooseberry Bushes.	100
Gardens of Albany,	121
Angora Goat.	122
Fruit Gardens,	126
Generation of Plants and Animals,	127
Large Geese,	151
Local Names of the Grape,	158
Landscape Gardening,	164
Belfast Botanic and Horticultural Garden,	171
Botanical Garden, Cambridge, Mass.	183
Gardening,	196
Grubs in Horses,	198
Sketch of the Gardens in the U. S.	201, 231, 260, 287
Remarks on the Sketch of the Gardens in the U. States,	235, 255, 282
The New American Gardener,	221

H.

Sketch of N. York Horticultural Society,	1, 62
Horticultural Society of Paris,	9
Report of the Inspecting Committee of the N. York Horticultural Society for 1827,	14
Reports of the Navy Department in relation to American water rotted Hemp,	23, 82
Dundee Horticultural Society,	51
Horn Piths for manure,	ib.
Horticultural Chemistry,	68, 110, 167, 277
Dead Horses in Paris,	83
Proceedings of the New York Horticultural Society,	94, 115, 144, 168, 193, 208, 239, 272
Hybrids or vegetable crossing,	97
American Horticulture,	109, 133
Horticultural Society of Philadelphia,	121
Saddle Horse,	185
Prince on Horticulture,	147
Horn Shavings,	148
Heat and Light,	162
Hedges,	163
Spade Husbandry,	228
Stabling and Grooming of Horses,	233
Common Heath,	248
Gypsum in Agriculture,	268
Domestic Horticultural Society,	289

I.

Instinct,	21, 127
Preparing ice and filling an ice house,	33
To destroy Insects,	41
Ichneumen Fly,	94
Insects on Peach Trees,	137
Vegetable Inoculation,	151
French Industry,	152
Killing Insects for Naturalists,	176
Cochineal Insect,	221
American Institute,	279

K.

Approach of Vegetable and Mineral Kingdoms,	52
Preservation of Sour Krout,	223
Krameria triandria,	246

L.
Cultivation of Lucerne, 17
Liverwort, 115
Lythrum verticellatum, 136
Linnean Society, 150
Farmer's Library, 173
Lettuce in Winter, 238
Leaves fodder for cattle, 247
Iceland Lichen, ib.
Improvement in Tanning Leather, 248
Consumption of London, ib.
M.
Fossil and Saline Manures, 12
Culture of Mangel Wurzel, 18
Mulberries and Walnuts, 76
Melons, 76, 224
Culture of the Mushroom, 95
Botanic Garden of Mexico, 99
The Vegetable Marrow, ib.
Mimulus moscatus, 125
Black Mulberry of Europe, 144
Influence of the Moon, 149
Mould, 152
Green crops as a manure, ib.
Bamboo Manna, 173
Substitute for Mulberry Leaves, 176
Threshing Machine, 200
Machine for Spinning Flax, 221
N.
Variety of Nature, 20
Study of Natural History, 158
Natural History of Nubia, 172
Occurrences in Natural History, 226, 249, 273
Nectarines, 188
O.
Orchard in Miniature, 81
Retrograde motion of the juice of Orange, 135
Oyster Shells, 148
Sweet Oil, 176
Organization of Matter, ib
Apple Orchard, 177
Olive Tree. 149, 182
Orange Tree, 248
P.
Disease of Peach Trees, 10
Pepper. 15
Peach donominated Emperor of Russia, 16, 36
Improvement of Pastures, 29
Beauty of Native American Plants, 36
Preserving and Experiments on Posts, 42, 74
On culture of Peach Trees, 42
Cultivation of Early Peas, 44
Worm destructive to Peach Trees, 48
Potatoe, Witheringia Montana, 49
Chemical Relationship of Plants, 51
Uses of Potatoes and for Seed, 53, 53 121, 124
Chili Native Potato, 58
Ploughing, 66
Experiments on the Potato, 71
Straw Paper, 76
Early variety of Potatoes, 107, 122, 230
Parsnips and Bartlett Pear, 122
Perspiration of Plants and Animals, 127
Sexuality of Plants, 149
French Philosophers, 172
Pita Plant, ib.
Boiling Peas, 200
Watering Plants for market, 176
Pears, 224, 247, 296
Valuable Patents, 264
Stone Pine, 295
Double Standing Press, 296
Q.
Queries to, and Answers by, Mr. Wilson, 245, 261
R.
Rosa Gravillii, 41
Vermont Rice, 50
Rosseau's Herbal, 76
Raspberry Wine, 152
Critical Remarks on "An American Horticulturist," 169
Sympathy between Roots and Branches, 172
Rice Machine, 189
Roots resuscitated by hot water, 224
Remarks in answer to a "Squash," 257
Power of the Sun's Rays, 295
S.
G. Thorburn & Son's Seed Store, 6
The Season of 1823, 8
New Zealand Spinage, 23, 197
On Soils, 24, 31, 126, 134
Red Monthly Strawberry, 28
Improvement of Soils, 30
Introduction of Foreign Seeds & Plants into this country, 37
Agricultural Schools, 45, 58, 65, 150, 240
Germinating power of Seeds, 51, 52
Strawberries, 7, 8, 58, 124, 295
Poisoned Sheep, 75
Sugar Cane, 0, 128
Large Sheep, 123
Improved Dishley Sheep 142
Silk, 123, 175, 224
Senecio obovatus or Squaw Weed, 129
Germination of Seed, 154
Salsify or Vegetable Oyster, 189
Squash in answer to Betula Alba, 191
Seed for Sowing, 197
Kinging Swine, 200
Fattening do 219
Treatment of do. 268
Improved American Sheep, 243
Maple Sugar, 241
Choice of Live Stock, 248
Sumac, 247
Extract of do. 285
Oil from Sun Flowers, 295
T.
Charles Telfair to Dr. Hosack, 3
Forest Trees effected by light, &c. 19
Tea in Brazil, 26
Canada Thistle, 59
Culture and Manufacture of Tea, 105
Ten-Week Stock, 113
Strychnos nux vomica, 125
Forest and Ornamental Trees, 126, 276 280, 285
Felling Timber, 147
Tobacco, 151
Benefits from Toads, 173, 175
Qualities of Timber, 231
Frozen Turnips, 246
Nutrition of do. 246
Profitable Tree, 247
Apple Trees. 248
Vigor, Maturity and Decay of Trees, 289
French Method of Transplanting, 295
V.
Analysis of Vegetables, 21
Vine called Black Orleans, 44
Union among Vegetable Tribes, 52
Effects of Vegetables on the Atmosphere, 52
Preventing the deterioration of Vegetables, 53
Faded Violet, 100
Vinegar, 122, 222
Treatise on the culture of the Vine, 125
Profits of a Vineyard, 126
Poisoning of Vegetables, 130
Vegetable Extremes, 151
Retarding Vegetation by shade and the cold-house, 174
Prevent Bleeding of Vines, 176
Vegetable Articles of value from Denmark, 245
Culture of the Vine in the Crimea, 295
W.
R. Wilcox's apparatus to demonstrate the requisites for germination. 27
Wilson's Economy of the Kitchen Garden, &c. 87
Wisteria Sinensis, 98
Mrs Wolstoncroft's Botany of Cuba, 99
Cotton Seed Whiskey, 100
Muscadine Wine, 121
Wheat and Barley, 124
Adlum's Catawba Wine, 132
Experiments on Wheat relative to Smut, 181
Weevil in Wheat, 58, 195
American Wine, 199
Deterioration of Wine, 204
Liming Seed Wheat, 224
Long Anglo Merino Wool, 240
Y.
Cattle Yards, 10
Patent Horse Yoke, 238

21 F 909
